ELSEVIER

Int. J. Miner. Process. 41 (1994) 323–324

INTERNATIONAL JOURNAL OF MINERAL PROCESSING

Contents Volume 41 (1994)

Research papers

The interrelationship between mineral liberation and leaching behaviour
L. Lorenzen and J.S.J. van Deventer 1

Adaptive predictive control of a grinding circuit
A. Desbiens, A. Pomerleau and K. Najim 17

Vibroinertial comminution — principles and performance
P. Blazy, L.P. Zarogatsky, E.A. Jdid and M. Hamdadou 33

Voidage of ferrous sinter beds: new measurement technique and dependence on feed characteristics
J. Hinkley, A.G. Waters, D. O'Dea and J.D. Litster 53

An electrochemical method for the study of the flotation chemistry of sphalerite
P.E. Richardson, Q. Hu, N.P. Finkelstein and R.-H. Yoon 71

The photoelectrochemistry of galena
P.E. Richardson, R.-H. Yoon, R. Woods and A.N. Buckley 77

Submonolayer adsorption of alkyl xanthates on galena
A.V. Shchukarev, I.M. Kravets, A.N. Buckley and R. Woods 99

Kinetics of ethylxanthate adsorption on cerussite in alkaline media in presence or absence of dissolved lead ions
S.R. Popov and D.R. Vučinić 115

Applicability of various averaging concepts to predict the average dynamic properties of poly-dispersed liquid–solid fluidized bed systems
U.P. Ganguly 129

Composite washing of coals from multiple sources: Optimization by numerical technique
K. Sen, A. Choudhury, R. Das Gupta, S. Ghose and R. Haque 147

Book review

Colloid Chemistry in Mineral Processing, by J.S. Laskowski and J. Ralston (Editors) — R. Hogg 161

Announcements 164

Research papers

Leaching kinetics of malachite in ammonia solutions
A. Künkül, M. Muhtar Kocakerim, S. Yapıcı and A. Demirbağ 167

Fine mineral recovery with hydrophobic magnetite
S.R. Gray, D.E. Langberg and N.B. Gray 183

SSDI 0301-7516

Role of pH and dissolved mineral species in Pittsburgh No. 8 coal flotation system — I. Floatability of coal
D. Liu, P. Somasundaran, T.V. Vasudevan and C.C. Harris 201
Role of pH and dissolved mineral species in Pittsburgh No. 8 coal flotation system — II. Separation of pyrite and non-pyritic minerals from coal
D. Liu, P. Somasundaran, T.V. Vasudevan and C.C. Harris 215
Role of collector and frother, and of hydrophobicity/oleophilicity of pyrite on the separation of pyrite from coal by flotation
D. Liu and P. Somasundaran 227
Process development of kaolin pressure bleaching using carbohydrates in acid media
F. Veglio' and L. Toro 239
The role of zeta potentials of oil droplets and quartz particles during collectorless liquid–liquid extraction
E. Kusaka, Y. Nakahiro and T. Wakamatsu 257
Investigations on valleriite from Western China: crystal chemistry and separation properties
R. Li and L. Cui 271
Electroflotation of metal ions in waste water
L. Alexandrova, T. Nedialkova and I. Nishkov 285
Prétraitement de l'acide phosphorique industriel par les terres filtrantes algériennes (Pretreatment of industrial phosphoric acid by Algerian filter aids)
A. Mellah, S. Chegrouche and L. Setti 295

Technical notes
A simple algorithm for the calculation of the terminal velocity of a single solid sphere in water
A. Nguyen-Van, H.J. Schulze and S. Kmeť 305
Determination of holdup of flake-shaped particles in solid–water systems using conductivity
S. Banisi, J.A. Finch and A.R. Laplante 311
